ANNEX C

Note: For OECD member countries, as well as Brazil, China and Russia, historical data for real GDP, private consumption expenditure deflator and GDP deflator were obtained from the OECD Economic Outlook No. 112, December 2022. For other economies, historical macroeconomic data were obtained from the IMF, World Economic Outlook, October 2022. Assumptions for the projection period draw on the historical update of the OECD Economics Department, projections of the IMF, and for population, projections from the United Nations World Population Prospects Database, (medium variant). Data for the European Union are euro area aggregates except for population. The price index used is the private consumption expenditure deflator. Average 2020-22est and 2022est: Data for 2022 are estimated.

1. Annual per cent change.
2. Annual weighted average real GDP and CPI growth rates in OECD countries are based on weights using purchasing power parities (PPPs).
3. Excludes Iceland and Costa Rica but includes all EU member countries.
4. Short-term update for crude oil price from the OECD Economic Outlook N°112 (December 2022). For 2022, the annual average daily spot price is used and the December 2022 average spot price is used for 2023. The oil prices are constant in real term during the projection period.
5. World Bank. Data for 2022 are estimated, projections by OECD and FAO Secretariats.
