## ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

Pursuant to Article 1 of the Convention signed in Paris on 14th December 1960, and which came into force on 30th September 1961, the Organisation for Economic Co-operation and Development (OECD) shall promote policies designed:

- to achieve the highest sustainable economic growth and employment and a rising standard of living in Member countries, while maintaining financial stability, and thus to contribute to the development of the world economy;
- to contribute to sound economic expansion in Member as well as non-member countries in the process of economic development; and
- to contribute to the expansion of world trade on a multilateral, non-discriminatory basis in accordance with international obligations.

The original Member countries of the OECD are Austria, Belgium, Canada, Denmark, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The following countries became Members subsequently through accession at the dates indicated hereafter: Japan (28th April 1964), Finland (28th January 1969), Australia (7th June 1971), New Zealand (29th May 1973), Mexico (18th May 1994), the Czech Republic (21st December 1995), Hungary (7th May 1996), Poland (22nd November 1996), Korea (12th December 1996) and the Slovak Republic (14th December 2000). The Commission of the European Communities takes part in the work of the OECD (Article 13 of the OECD Convention).

*In order to achieve its aims the OECD has set up a number of specialised committees. One of these is the Development Assistance Committee, whose Members have agreed to secure an expansion of aggregate volume of resources made available to developing countries and to improve their effectiveness. To this end, Members periodically review together both the amount and the nature of their contributions to aid programmes, bilateral and multilateral, and consult each other on all other relevant aspects of their development assistance policies.*

*The Members of the Development Assistance Committee are Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the United Kingdom, the United States and the Commission of the European Communities.*

## ORGANISATION DE COOPÉRATION ET DE DÉVELOPPEMENT ÉCONOMIQUES

En vertu de l'article 1<sup>er</sup> de la Convention signée le 14 décembre 1960, à Paris, et entrée en vigueur le 30 septembre 1961, l'Organisation de Coopération et de Développement Économiques (OCDE) a pour objectif de promouvoir des politiques visant :

- à réaliser la plus forte expansion de l'économie et de l'emploi et une progression du niveau de vie dans les pays Membres, tout en maintenant la stabilité financière, et à contribuer ainsi au développement de l'économie mondiale ;
- à contribuer à une saine expansion économique dans les pays Membres, ainsi que les pays non membres, en voie de développement économique ;
- à contribuer à l'expansion du commerce mondial sur une base multilatérale et non discriminatoire conformément aux obligations internationales.

Les pays Membres originaires de l'OCDE sont : l'Allemagne, l'Autriche, la Belgique, le Canada, le Danemark, l'Espagne, les États-Unis, la France, la Grèce, l'Irlande, l'Islande, l'Italie, le Luxembourg, la Norvège, les Pays-Bas, le Portugal, le Royaume-Uni, la Suède, la Suisse et la Turquie. Les pays suivants sont ultérieurement devenus Membres par adhésion aux dates indiquées ci-après : le Japon (28 avril 1964), la Finlande (28 janvier 1969), l'Australie (7 juin 1971), la Nouvelle-Zélande (29 mai 1973), le Mexique (18 mai 1994), la République tchèque (21 décembre 1995), la Hongrie (7 mai 1996), la Pologne (22 novembre 1996), la Corée (12 décembre 1996) et la République slovaque (14 décembre 2000). La Commission des Communautés européennes participe aux travaux de l'OCDE (article 13 de la Convention de l'OCDE).

*Pour permettre à l'OCDE de réaliser ses objectifs, un certain nombre de comités spécialisés ont été créés. L'un de ceux-ci est le Comité d'Aide au Développement, dont les Membres ont décidé, en commun, de parvenir à un accroissement du volume total des ressources mises à la disposition des pays en développement et d'en améliorer l'efficacité. A cette fin les Membres examinent, ensemble et périodiquement, à la fois le volume et la nature de leurs contributions aux programmes d'aide, établis à titre bilatéral et multilatéral, et se consultent sur toutes les autres questions importantes de leur politique d'aide.*

*Les Membres du Comité d'Aide au Développement sont : l'Allemagne, l'Australie, l'Autriche, la Belgique, le Canada, le Danemark, l'Espagne, les États-Unis, la Finlande, la France, la Grèce, l'Irlande, l'Italie, le Japon, le Luxembourg, la Norvège, la Nouvelle-Zélande, les Pays-Bas, le Portugal, le Royaume-Uni, la Suède, la Suisse, et la Commission des Communautés européennes.*

## Foreword

This report presents individual commitments of Official Development Assistance (ODA) to Least Developed Countries for 1999 reported to the Creditor Reporting System (CRS).

This is a special edition of the publication **Creditor Reporting System: Aid Activities**. Five other reports will cover: Africa, Asia, Latin America and the Caribbean, Europe and Oceania and CEECs/NIS. Each will contain information on individual aid commitments for the last two years, and thus present a picture as complete as possible of aid activities in each region.

*This publication applies the purpose codes as approved by the DAC in September 1999. A full list of the purpose codes with descriptions is reproduced in the Annex.*

The presentation of the information is designed primarily to facilitate its use for country and sector programming and analysis. Within each country, transactions are ordered by sector, and within each sector, by donor.

The information is limited to that supplied by donors, DAC Members and multilateral institutions, and entered into the CRS database. Complete records from 1973 onwards are available on the yearly *International Development Statistics* CD-ROM, and on the DAC online site at the following address:

<http://www.oecd.org/dac/htm/online.htm>.

This document was prepared by the Development Co-operation Directorate. It is published on the responsibility of the Secretary-General of the OECD.

## Avant-Propos

Ce rapport présente les engagements individuels d'Aide publique au développement (APD) aux pays moins avancés pour 1999 notifiés au Système de notification des pays créanciers (SNPC).

C'est une édition spéciale de la publication **Système de notification des pays créanciers : Activités d'aide**. Les autres rapports couvriront l'Afrique, l'Asie, l'Amérique latine et les Caraïbes, l'Europe et l'Océanie et les PECO/NEI. Chacun présentera des informations sur les engagements individuels d'aide pour les deux dernières années, et donnera ainsi une image aussi complète que possible des activités d'aide dans chacune des régions.

*Cette publication utilise la classification sectorielle approuvée par le CAD en septembre 1999. La liste complète des codes-objet avec leur description est reproduite en annexe.*

Les informations présentées visent les besoins des agences et institutions de coopération au développement en matière de programmation et d'analyse par pays et par secteur. Pour chaque pays, les transactions sont groupées par secteur, et pour chaque secteur par donneur.

Les données sont celles qui ont été notifiées par les donateurs, Membres du CAD et institutions multilatérales, et enregistrées dans la base de données SNPC. Une édition complète des données depuis 1973 est disponible sur le CD-ROM annuel *Statistiques sur le développement international*, et en ligne sur le site du CAD à l'adresse

<http://www.oecd.org/dac/htm/online.htm>.

Ce document a été préparé par la Direction de la coopération pour le développement. Il est publié sous la responsabilité du Secrétaire général de l'OCDE.

## Basic aspects of the Creditor Reporting System

The Creditor Reporting System was established in 1967 with the aim of supplying “participants with a regular flow of data on indebtedness and capital flows”. The CRS is an information system comprising data on official development assistance and other lending by, or supported by, the official sector. It is sponsored jointly by the OECD and the World Bank, and operated by the OECD.

The CRS is a major source of information on sectoral and geographical distribution, as well as the terms and conditions of official development assistance, and it also plays a key role in the establishment of statistics on the external debt of developing and other countries. It has emerged as an essential tool for monitoring the application of the DAC Guiding Principles for Associated Financing and Tied and Partially Untied ODA.

A subset of the CRS consists of individual grant and loan commitments to developing countries and CEECs/NIS (between 6 000 - 32 000 transactions a year) submitted by Members of the DAC<sup>1</sup> and multilateral institutions. Reporters supply detailed information on each commitment on an ongoing basis.

Amounts shown in this report have been converted to USD using the annual average exchange rates. In order to concentrate on the most relevant information, commitments of less than ten thousand USD are not shown. Amounts have been aggregated by recipient and by donor for projects with same purpose codes and descriptions. The exhaustive list of transactions may however be consulted in the CRS database.

1. The Members of the DAC are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Italy, Ireland, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the United Kingdom, the United States and the Commission of the European Communities.

## Le Système de notification des pays créanciers en bref

Le Système de notification des pays créanciers a été créé en 1967 afin de fournir “régulièrement aux participants des renseignements sur l’endettement extérieur et les apports de moyens financiers”. Le SNPC est un système d’information comprenant des données sur l’aide publique au développement et les autres apports du secteur public ou bénéficiant d’un soutien du secteur public. Il est patronné conjointement par l’OCDE et la Banque mondiale, et mis en œuvre par l’OCDE.

Le SNPC constitue une source importante de renseignements sur la ventilation sectorielle et géographique de l’aide au développement ainsi que sur ses conditions financières et ses modalités. Il joue un rôle clé dans l’établissement de statistiques sur la dette extérieure des pays en développement et d’autres pays. Il est en outre un instrument essentiel pour suivre la mise en œuvre des Lignes directrices du CAD relatives au financement mixte et à l’APD liée et partiellement déliée.

Les informations sur les engagements au titre de dons ou de prêts consentis chaque année aux pays en développement et aux PECO/NEI (d’autour de 6 000 à plus de 32 000 transactions par an) par les Membres du CAD<sup>1</sup> et par des institutions multilatérales constituent un sous-ensemble de la base de données SNPC. Les déclarants notifient de façon continue des informations détaillées sur chaque engagement souscrit.

Les montants indiqués dans ce rapport ont été convertis en \$EU en utilisant les taux de change moyens annuels. Afin de mettre en évidence l’information la plus pertinente, les transactions d’un montant inférieur à dix mille \$EU ne sont pas présentées. Les montants sont cumulés par receveur et par donneur pour les projets qui ont le même code-objet et la même description. La liste complète des transactions peut cependant être consultée dans la base de données SNPC.

---

1. Les Membres du CAD sont : l’Allemagne, l’Australie, l’Autriche, la Belgique, le Canada, le Danemark, l’Espagne, les États-Unis, la Finlande, la France, la Grèce, l’Irlande, l’Italie, le Japon, le Luxembourg, la Norvège, la Nouvelle-Zélande, les Pays-Bas, le Portugal, le Royaume-Uni, la Suède, la Suisse et la Commission des Communautés européennes.

## **Resource flows covered by the Creditor Reporting System**

The flow of resources covered by the CRS corresponds broadly to international financial transactions undertaken or supported by governments of Member countries, other than as specified below. The database also includes loan transactions by the World Bank, the Inter-American Development Bank, the African Development Bank and the International Fund for Agricultural Development.

Significant exclusions are:

- aid flows from non-governmental organisations;
- aid flows from non-DAC donors;
- foreign direct investment, unguaranteed bank lending, portfolio investment;
- contributions by Members to multilateral agencies;
- loans made out of funds held in the recipient country.

## **CRS coverage of aid activities by DAC Members**

The Development Assistance Committee collects data on ODA/OA commitments and disbursements at the level of individual aid activities in the CRS, and in the form of aggregates in the annual DAC Questionnaire.

Same concepts and definitions apply in the two systems. CRS data are compared to those of the DAC Questionnaire in order to assess the coverage of the database, i.e. CRS coverage ratios are calculated.

Coverage ratios of less than 100% mean that not all ODA/OA activities have been reported in the CRS. For example, data on technical co-operation are partly missing for France and Japan; some aid extending agencies of the Commission of the European Communities do not report their activities to the CRS.

## **Apports de ressources couverts par le Système de notification des pays créanciers**

L'apport de ressources visé par le SNPC correspond, essentiellement, aux opérations financières internationales entreprises ou bénéficiant du soutien des gouvernements des pays Membres, autres que celles spécifiées ci-dessous. La base de données SNPC contient aussi des opérations de la Banque mondiale, de la Banque interaméricaine de développement, de la Banque africaine de développement et du Fonds international de développement agricole.

Les exclusions les plus significatives sont :

- l'aide des organisations non-gouvernementales ;
- l'aide des pays non membres du CAD ;
- les investissements directs étrangers, prêts bancaires non garantis, investissements de portefeuille ;
- les contributions des Membres aux institutions multilatérales ;
- les prêts financés sur des fonds détenus en compte dans un pays bénéficiaire.

## **Couverture des activités d'aide des Membres du CAD dans le SNPC**

Le Comité d'Aide au Développement collecte des données sur les engagements et les versements d'APD/AP au niveau des activités individuelles d'aide dans le SNPC, et sous forme d'agrégats dans le Questionnaire annuel du CAD.

Les mêmes concepts et définitions s'appliquent dans les deux systèmes. Les données SNPC sont comparées à celles du Questionnaire CAD afin d'estimer la couverture de la base de données : des ratios de couverture SNPC sont calculés.

Un ratio de couverture inférieur à 100% signifie que toutes les activités d'APD/AP n'ont pas été notifiées dans le SNPC. Par exemple, les données sur la coopération technique manquent partiellement pour la France et le Japon ; certaines agences d'aide de la Commission des Communautés européennes ne notifient pas leurs activités dans le SNPC.

Some coverage ratios may be greater than 100% due to a difference between the CRS and the DAC in the reporting method for debt reorganisation, or due to a better geographical allocation of commitments in the CRS.

The coverage ratio for the United Kingdom is an estimate since it did not report DAC commitment data in 1999. For Belgium, Spain and partly Portugal, DAC and CRS grant data relate to disbursements.

The coverage ratios complement the information presented in this publication. The proportion of activities missing should be borne in mind when using the data.

The ratios are presented below for 1999.

#### *1999 coverage*

Greece, Ireland, Luxembourg and New Zealand have not reported in the CRS for 1999.

Certains ratios peuvent être supérieurs à 100% à cause d'une différence méthodologique entre le SNPC et le CAD dans la notification des réaménagements de la dette, ou à cause d'une meilleure allocation géographique des données sur les engagements dans le SNPC.

Le ratio de couverture pour le Royaume-Uni est une estimation car les données CAD sur les engagements de 1999 n'ont pas été notifiées. Pour la Belgique, l'Espagne et partiellement le Portugal, les données CAD et SNPC sur les dons portent sur les versements.

Les ratios de couverture complètent l'information présentée dans cette publication. Lors de l'utilisation des données, il devrait toujours être tenu compte de la proportion d'activités manquantes.

Les ratios de couverture sont présentés ci-dessous pour 1999.

#### *Couverture 1999*

La Grèce, l'Irlande, le Luxembourg et la Nouvelle Zélande n'ont pas notifié dans le SNPC pour 1999.

\* Data incomplete for the time being / Données provisoirement incomplètes.

In order to complement the information on individual aid activities derived from the CRS, the following tables and charts 1 and 2 show aggregate data from DAC statistics on ODA disbursements to LLDCs and total receipts. Charts 3 and 4 on sectoral breakdown of ODA to LLDCs were obtained by aggregating CRS individual transactions.

Afin de compléter les informations détaillées tirées du SNPC sur les activités individuelles d'aide, les tableaux et les graphiques 1 et 2 suivants présentent des données agrégées dérivées des statistiques du CAD sur les versements d'APD et les apports totaux aux PMA. Les graphiques 3 et 4 sur la répartition sectorielle de l'APD aux PMA ont été obtenus par agrégation des données individuelles du SNPC.

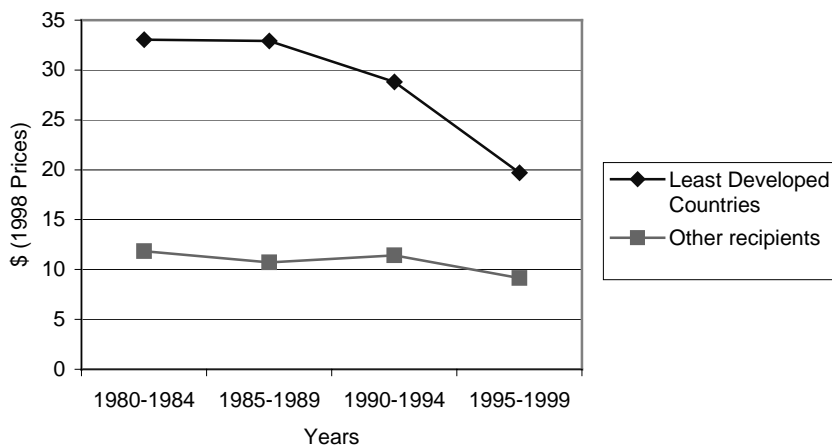

**Chart 1: Share of Least Developed Countries in Total Net ODA, 1980-1999 /  
Part des pays moins avancés dans le total de l'APD nette, 1980-99**

**Aid flows to least developed countries have significantly declined over the past 20 years.** While aid in general has declined, especially since 1992, the share of LLDCs within this total has also fallen.

**Les flux d'aide aux pays moins avancés ont nettement diminué sur les 20 dernières années.** Alors que l'aide en général a décliné, particulièrement depuis 1992, la part des PMA dans ce total a également baissé.

**Chart 2: Annual Average Aid Per Capita / Aide annuelle moyenne par habitant**

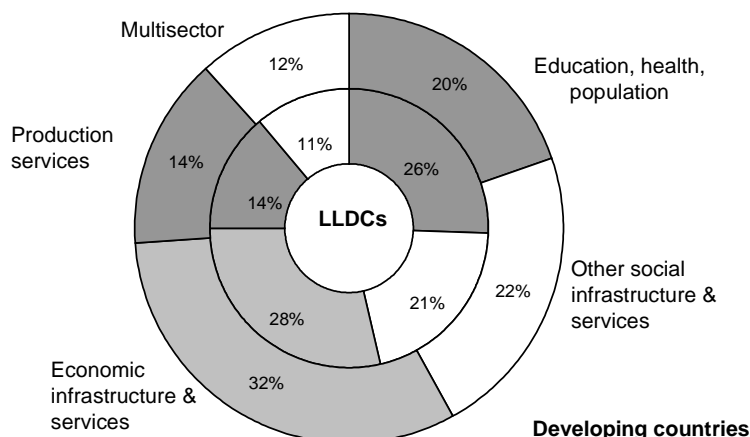

**The fall is even more dramatic when viewed on a per capita basis,** since population has risen faster in LLDCs than in other developing countries. Per capita aid to LLDCs, which was three times that of aid to other developed countries in the early 80s, has dropped to less than double the average for those countries.

**Cette chute est encore plus importante lorsqu'on examine l'aide annuelle moyenne par habitant.** Cela est le résultat d'une croissance de la population plus rapide dans les PMA que dans les autres pays en développement. L'aide par habitant aux PMA, qui était trois fois plus importante que l'aide dans les autres pays en développement au début des années 1980, est retombée à moins du double.

**Chart 3: Aid by sector, average 1997-99 / Aide par secteur, moyenne sur 1997-99**

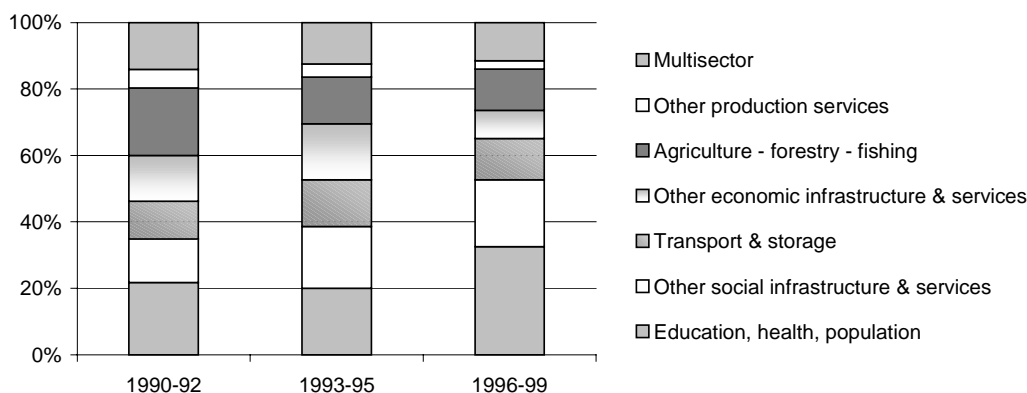

(Inner: LLDCs; outer: Developing countries) / (Cercle intérieur : PMA ; cercle extérieur : Pays en développement)

The sectoral breakdown of aid to LLDCs resembles that of all developing countries. They receive, however, proportionately more aid to education, health and population. Chart 3 presents the data as a share of total sector allocable aid for 1997-99 (the years for which over 84% of total ODA has been reported to the CRS). A large share of aid to LLDCs is extended in the form of non-sector allocable contributions. In 1997-99, 10% of total ODA to LLDCs was allocated to debt reorganisation, 11% to general programme assistance and 6% to emergency aid.

La répartition sectorielle de l'aide aux PMA est semblable à celle de l'ensemble des pays en développement. Les PMA ont reçu cependant proportionnellement davantage d'aide pour l'éducation, la santé et les programmes en matière de population. Le graphique 3 présente la répartition de l'aide qui peut être allouée par secteurs en 1997-99 (années pour lesquelles le taux de couverture de l'APD notifiée dans le SNPC s'élève à 84%). Une part significative de l'aide aux PMA est accordée sous la forme de contributions non allouées par secteurs. En 1997-99, 10% du total de l'APD aux PMA ont été affectés au réaménagement de la dette, 11% à l'aide programme et 6% à l'aide d'urgence.

**Chart 4: Sectoral breakdown of aid to top ten LLDCs recipients, 1990-99 / Répartition sectorielle de l'aide aux dix premiers PMA receveurs, 1990-99**

Aid to LLDCs is increasingly targeted to social infrastructure and services and transport. Aid to the production sectors, agriculture in particular, has fallen. Chart 4 shows trends in the sectoral breakdown of aid to the top ten LLDCs recipients for which CRS coverage is high throughout the 1990s.

L'aide aux PMA se focalise davantage dans les infrastructures et services sociaux ainsi que dans les transports. L'aide aux secteurs de production, et en particulier l'agriculture, a baissé. Le graphique 4 présente la tendance de la répartition sectorielle de l'aide aux dix PMA recevant le plus d'aide et pour lesquels le taux de couverture SNPC des années 1990 est élevé.

## Conventions and definitions

Commitment year (year the transaction was signed in).

Broad sectors, listed on page 15.

The institution undertaking or administering the transaction.

**ODA G** indicates ODA Grant.

**ODA E** indicates ODA Equity.

**ODA L** indicates ODA Loan.

**OA** indicates official aid to countries on part II of the DAC list of aid recipients.

Total amount committed in USD million.

Brief description of the project, programme or supplies. "AF" in the description means that the transaction is the ODA part of an associated financing package.

Detailed 5-digit CRS code.

The grant element (at a 10% discount rate) expressed as a percentage of the face value of the loan or credit. 100% identifies ODA grants.

Gender equality incorporating Women in development.

Aid to environment.

Direct assistance to poor people.

Participatory development/  
Good governance.

The four above aid policy markers take the following values:

"0" not targeted;

"1" significant objective;

"2" principal objective.

CRS transaction number allocated to the commitment.

## ANNEX

### The Purpose of Aid

The DAC statistics on the purpose of aid cover three dimensions: the sector of destination, the form or type of aid, and the policy objective(s) of aid. Data are collected on individual commitments in the Creditor Reporting System (CRS), and in the form of annual commitment aggregates in the DAC Questionnaire.

The **sector of destination** of a contribution is selected by answering the question "which specific area of the recipient's economic or social structure is the transfer intended to foster". Some contributions are not susceptible to allocation by sector and are classified as non-sector allocable aid.

The **nature or form** of an aid contribution is selected by answering the question "what form of aid will reach the benefiting sector". For sector allocable aid, a distinction is made between investment projects, sectorised programme aid, other resource provision including commodities and supplies, and technical co-operation. Only two categories are relevant for non-sector allocable aid: "cash" and "other resource provision including commodities and supplies".

The **policy objectives** of aid contributions are tracked across all sectors and forms of aid. Presently, data are collected on Gender equality incorporating Women in development, Aid to environment, Direct assistance to poor people, and Participatory Development/Good Governance. A distinction is made between contributions for which the policy objective is "not targeted", "a significant objective", and "a principal objective".

The CRS and the DAC purpose classifications are related. The content of the DAC sector classification is defined through the CRS purpose codes. The DAC classification by nature or form of aid has a CRS equivalent. Both systems request data on the same policy objectives. As a consequence, the DAC aggregate statistics can be linked up with the more detailed CRS data, thereby allowing for examination of the geographical and purpose of aid distribution of aid simultaneously.

## ANNEXE

### L'objet de l'aide

Les statistiques du CAD sur l'objet de l'aide recouvrent trois dimensions : le secteur de destination, la nature ou la forme de l'aide et le ou les objectif(s) de la politique de l'aide. La notification s'effectue transaction par transaction dans le Système de notification des pays créanciers (SNPC) et sous forme d'agrégats annuels d'engagements dans le questionnaire du CAD.

La réponse à la question « dans quels domaines particuliers de l'économie ou de la structure sociale du pays bénéficiaire ce transfert va-t-il stimuler le développement ? » détermine le **secteur de destination** d'un projet d'aide. Certaines contributions ne peuvent être ventilées par secteur et sont notifiées comme contributions non imputables par secteur.

La **nature ou la forme** d'une contribution d'aide est déterminée par la réponse à la question « quel type d'aide touchera le secteur bénéficiaire? » Pour l'aide ventilable par secteur, une distinction est faite entre les projets d'équipement, l'aide-programme sectorisée, d'autres apports de ressources y compris les produits et fournitures, et la coopération technique. Seules deux catégories relèvent de l'aide non ventilable par secteur : « les paiements comptants » et les « autres apports de ressources y compris les produits et fournitures ».

Les **objectifs de la politique de l'aide** couvrent tous les secteurs et formes de l'aide. Des données sont actuellement collectées sur « l'égalité hommes-femmes incorporant la participation des femmes au développement », « l'aide à l'environnement », « l'assistance directe aux plus démunis » et « développement participatif/bonne gestion des affaires publiques ». Une distinction est faite entre les contributions qui « ne sont pas orientées vers l'objectif », celles pour lesquelles « l'objectif est significatif » et celles pour lesquelles « l'objectif est principal ».

Les classifications SNPC et CAD sont apparentées. La classification sectorielle du CAD est définie à travers les codes secteurs du SNPC. La nature ou le type d'aide du CAD a une équivalence SNPC. Les deux systèmes collectent des données identiques sur les objectifs de la politique de l'aide. En conséquence, les montants agrégés dans les statistiques du CAD peuvent être liés avec les données plus détaillées du SNPC, permettant un examen simultané de la répartition géographique et sectorielle de l'aide.
