1. Values earlier than 2013 are not taken into consideration. OECD value: where the OECD aggregate is not provided in the source database, a simple average of latest available data is calculated where data exist for a significant number of countries.

2. Patent applications for higher-value inventions that have sought protection in at least two jurisdictions.

3. Excluding emissions/removals from land use, land-use change and forestry. Emissions expressed in CO₂ equivalent.
