Tables Annex 1. Characteristics of education systems

Table X1.1. Typical graduation ages, by level of education (2019)

Table X1.2. Typical age of entry, by level of education (2019)

Table X1.3. School year and financial year used for the calculation of indicators, OECD countries

Table X1.4. School year and financial year used for the calculation of indicators, partner countries

Table X1.5. Starting and ending age for students in compulsory education and by level of education (2019)

Note: All tables in Annex 1 are available on line, see the StatLink below

StatLink  <https://stat.link/svwp08>

Table X1.1. Typical graduation ages, by level of education (2019)

The typical age refers to the age of the students at the beginning of the school year; students will generally be one year older than the age indicated when they graduate at the end of the school year. The typical age is used for the gross graduation rate calculation.

	Upper secondary		Post secondary non-tertiary		Tertiary									
	General programmes	Vocational programmes	General programmes	Vocational programmes	Short-cycle tertiary		Bachelor's or equivalent			Master's or equivalent			Doctoral or equivalent	
					General programmes	Vocational programmes	First degree (3-4 years)	Long first degree (more than 4 years)	Second or further degree (following a bachelor's or equivalent programme)	Long first degree (at least 5 years)	Second or further degree (following a bachelor's or equivalent programme)	Second or further degree (following a master's or equivalent programme)

Note: Ending age of compulsory education is the age at which compulsory schooling ends. For example, an ending age of 18 indicates that all students under 18 are legally obliged to participate in education.

1. From September 2019, instruction is compulsory from the age of 3.

2. As of September 2020, 16-18-year-old students are required to train by several means: schooling, apprenticeship, training courses, civic service, and support or social and professional integration measures.
