

# 6 Country tables, tax revenues by sub-sectors of general government, 1990-2022

Revenues of Latin American, Caribbean and OECD countries have been attributed to the different levels of government according to the revised guidelines set out in the final version of the 2008 System of National Accounts (SNA). Under this, revenues are generally attributed to the level of government that exercises the authority to impose the tax or has the final discretion to set and vary the tax rate.

In all of the following tables a (“..”) indicates not available. The main series in this volume cover the years 1990 to 2022.

Figures referring to 1991-99, 2001-04, 2006-09, 2011-14 and 2016-21 in Tables 6.1 to 6.27 have been omitted because of lack of space. Complete series are, however, available on line at <http://dx.doi.org/10.1787/data-00641-en>.

.. Not available

1. The figures may be under-estimated as they exclude certain types of social security contributions for which data are not readily available.

2. In ECLAC data, tax on ownership of motor vehicles is classified in category 4000.

3. The tax debt payments in 2016 include revenue following the implementation of a new voluntary disclosure regime in July 2016 (Law 27260).

.. Not available

1. The data correspond to the reported consolidated revenues of the territorial entities (departments and municipalities).

2. All of the health contributions pertaining to FOSYGA (Solidarity and Guarantee Fund) are classified as social security contributions from 2013. Prior to 2013, only the portion of the contributions used to finance the subsidised regime was included and the part to finance the contributory regime was classified in the social security sector as "other incomes".

.. Not available

1. The data include social security contributions paid by the governments for their employees as well as the contributions for special regimes (teachers and magistrates). In ECLAC data, social security contributions also include INA (National Institute of Apprenticeship), IMAS (Joint Social Aid Institute) and FODESAF (Social Development and Family Allowances Fund).

2. In ECLAC data, the tax on ownership of vehicles, aircraft and boats is classified in category 4000.

3. The tax revenue of decentralised bodies is classified under the central government. In Costa Rica this revenue is classified under a separate unit (decentralised) considered to be different to the central government.

1. This heading includes the mandatory non-pensions contributions to the Instituto de Formación Técnico Profesional (INFOTEP). The tax revenue is classified under the central government. In Dominican Republic this revenue is classified under a separate unit (decentralised) considered to be different to the central government.

2. The figures exclude social security contributions to general government managed by the private sector.

- Vocational training contributions to the Instituto Salvadoreño de Formación Profesional (INSAFORP) are included in heading 3000. The tax revenue is classified under the central government. In El Salvador this revenue is classified under a separate unit considered to be different to the central government.
- Social security contributions are those paid to the Salvadoran Institute of Social Security (ISSS), National Public Employees Pension Institute (INPEP), Social Security Institute of the Armed Forces (IPSFA) and Salvadoran Institute of Teacher Welfare (ISBM). The figures exclude contributions to the privately managed regime and may include a small amount of voluntary contributions which is indistinguishable from the public social security contribution data.

- The employer contributions to National Institute of Vocational Training (INFOP) are included in heading 3000. The tax revenue is classified under the central government. In Honduras this revenue is classified under a separate unit considered to be different to the central government.
- The figures may include non-tax revenues and central government transfers but it has not been possible to distinguish the different components of local government tax revenues.

1. In ECLAC data, education insurance is classified as "Other taxes" (6000).

2. In CIAT and ECLAC data, the tax on banks, financial institutions and currency exchange is classified as a property tax (4000).

3. The figures exclude documentos fiscales as they are not considered as tax revenues according to the OECD classification, described in the interpretative guide.

4. Local tax revenue data in 2022 are estimated.

5. Social security contributions include regular and special contributions and professional risks premium collected by the Caja de Seguro Social (CSS). Figures in 2022 are estimated.

.. Not available

1. Contributions to SENATI are included in heading 3000. The tax revenue is classified under the central government. In Peru this revenue is classified under a separate unit considered to be different to the central government.

2. The figures for years up to 2000 exclude local government tax revenues as the data are not available.

.. Not available

1. Data for revenues from taxes on oil profits (classified under heading 1200) are not available from 2016.

2. Tax data are not available from 2018. The figures between 2015 and 2017 should be interpreted with caution as they have been affected by the high rate of inflation over this period.

3. Data on social security contributions are not available from 2014.
