

Foreword

This Survey is published on the responsibility of the Economic and Development Review Committee of the OECD, which is charged with the examination of the economic situation of member countries.

The economic situation and policies of the United States were reviewed by the Committee on 10 May 2022, with participation of representatives of the United States authorities. The draft report was then revised in the light of the discussions and given final approval as the agreed report of the whole Committee on 5 October 2022.

The Secretariat's draft report was prepared for the Committee by Ben Westmore and Alvaro Leandro under the supervision of Patrick Lenain. Statistical research assistance was provided by Damien Azzopardi, and editorial assistance by Stephanie Henry, Karimatou Diallo and Ilona Janus and communication assistance by Nathalie Bienvenu. The Survey also benefitted from contributions by Tsage Douglas. Support from the government of the United States is gratefully acknowledged.

The previous Survey of the United States was issued in July 2020.

Information about the latest as well as previous Surveys and more information about how Surveys are prepared is available at <https://www.oecd.org/eco/surveys/>.
