ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Commission takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

International Trade by Commodity Statistics

CHILE, ESTONIA, ISRAEL, KOREA, POLAND, SPAIN

2012-2015

This reliable source of yearly data covers a wide range of statistics on international trade of OECD countries and provides detailed data in value by commodity and by partner country. Each of the first five volumes of *International Trade by Commodity Statistics* contains the tables for six countries, published in the order in which they become available. The sixth volume also includes the OECD country groupings OECD Total and EU28-Extra.

For each country, this publication shows detailed tables relating to the **Harmonised System HS 2012** classification, Sections and Divisions (one- and two- digit). Each table presents imports and exports of a given commodity with more than seventy partner countries or country groupings for the most recent four-year period available.

ALSO AVAILABLE ON LINE

The data in this publication are also available on line via www.oecd-ilibrary.org under the title *International Trade by Commodity Statistics* (<http://dx.doi.org/10.1787/itcs-data-en>). Updated several times a year, the ITCS online version provides complete details on commodities and partner countries in value and quantity terms. Several versions are available according to the classification used and the length of the time series. Data are classified according to the Standard International Trade Classification (SITC) or the Harmonised System (HS).
