ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

STAN: OECD Structural Analysis Statistics

STAN: OECD Structural Analysis Statistics 2014 provides analysts and researchers with a comprehensive tool for analysing industrial performance across countries. The publication includes following annual measures: production, value added (at current and constant prices), gross fixed capital formation, number engaged and labour compensation. Data are presented in national currency for current price data, in terms of the current price value in the reference year (usually 2005) for volume data and in number of persons for employment data. Coverage is provided for 15 OECD countries and for multiple sectors, with extended coverage of service sectors according to ISIC Revision 4 classification.
