

# How's Life in Israel?

## Israel's current well-being, 2018 or latest available year

Note: This chart shows Israel's relative strengths and weaknesses in well-being compared to other OECD countries. Longer bars always indicate better outcomes (i.e. higher wellbeing), whereas shorter bars always indicate worse outcomes (lower wellbeing) – including for negative indicators, marked with an \*, which have been reverse-scored. Inequalities (gaps between top and bottom, differences between groups, people falling under a deprivation threshold) are shaded with stripes, and missing data in white.

## Israel's resources for future well-being, 2018 or latest available year

Natural Capital 	Economic Capital 	Human Capital 	Social Capital 
Greenhouse gas emissions per capita <span style="float: right;">②</span> ↗	Produced fixed assets <span style="float: right;">③</span> ↗	Educational attainment of young adults <span style="float: right;">①</span> ↗	Trust in others ... ...
Material footprint <span style="float: right;">①</span> ↔	Financial net worth of government <span style="float: right;">②</span> ↔	Premature mortality <span style="float: right;">①</span> ↗	Trust in government <span style="float: right;">②</span> ↔
Red List Index of threatened species <span style="float: right;">③</span> ↔	Household debt ... ...	Labour underutilisation rate ... ...	Gender parity in politics <span style="float: right;">②</span> ↔

Note: ①=top-performing OECD tier, ②=middle-performing OECD tier, ③=bottom-performing OECD tier. ↗ indicates consistent improvement; ↔ indicates no clear or consistent trend; ↘ indicates consistent deterioration, and "..." indicates insufficient time series to determine trends since 2010. For methodological details, see the Reader's Guide of *How's Life? 2020*.

### For more information

Access the complete publication, including information about the methods used to determine trends at: <https://doi.org/10.1787/9870c393-en>.

Find the data used in this country profile at: <http://oecd.org/statistics/Better-Life-Initiative-2020-country-notes-data.xlsx>.

## Deprivations in Israel

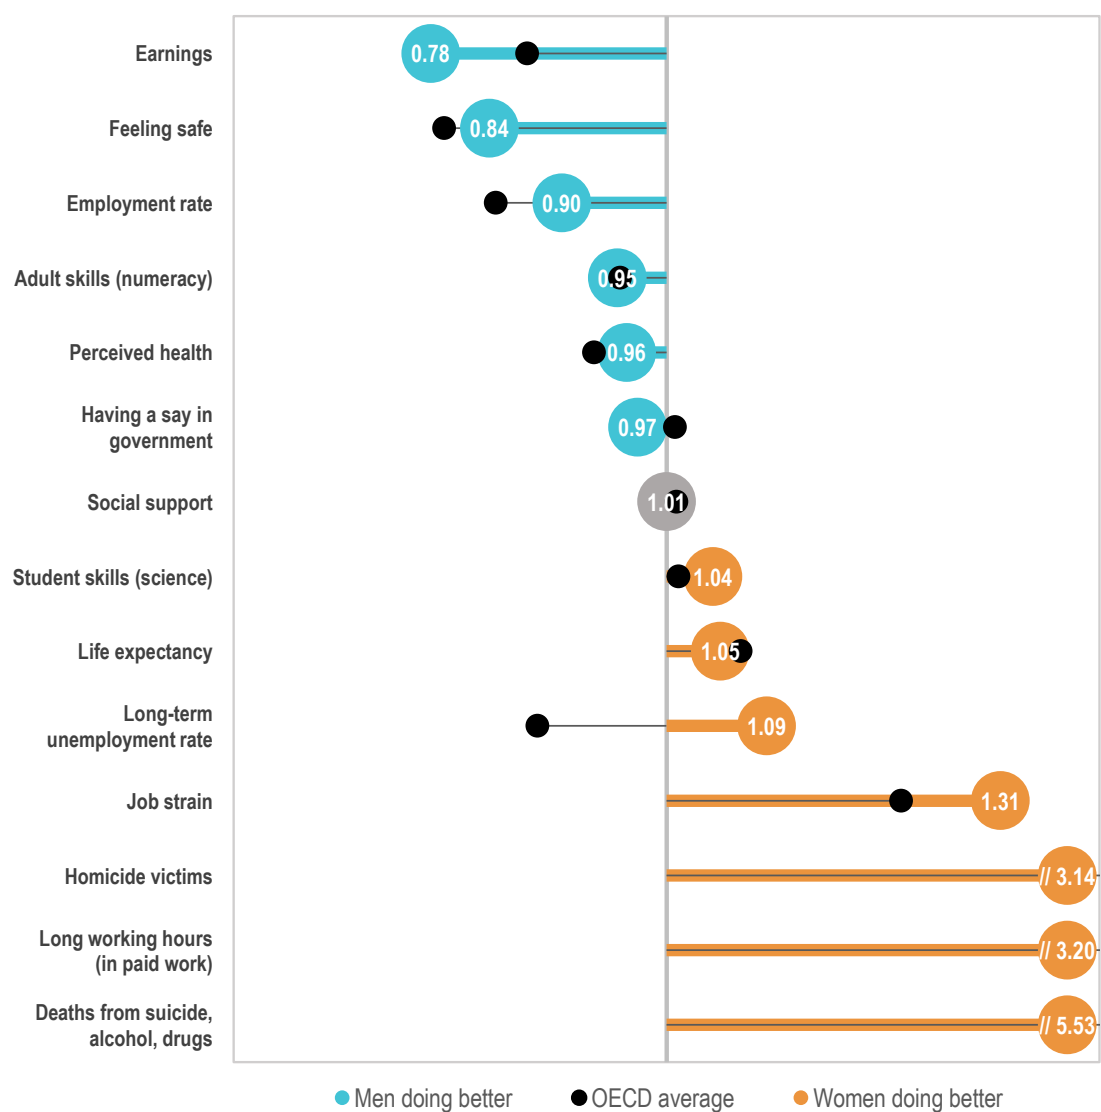

Deprivations in selected indicators of current well-being, 2018 or latest available year

Note: Relative income poverty refers to the share of people with household disposable income below 50% of the national median; financial insecurity refers to the share of individuals who are not income poor, but whose liquid financial assets are insufficient to support them at the level of the national relative income poverty line for at least three months; housing cost overburden refers to the share of households in the bottom 40% of the income distribution spending more than 40% of their disposable income on housing costs; and low satisfaction with life and with time use refer to the share of the population rating their satisfaction as 4 or lower (on a 0-10 scale).

## Inequalities between men and women in Israel

Gender ratios (distance from parity) for selected indicators of current well-being, 2018 or latest available year

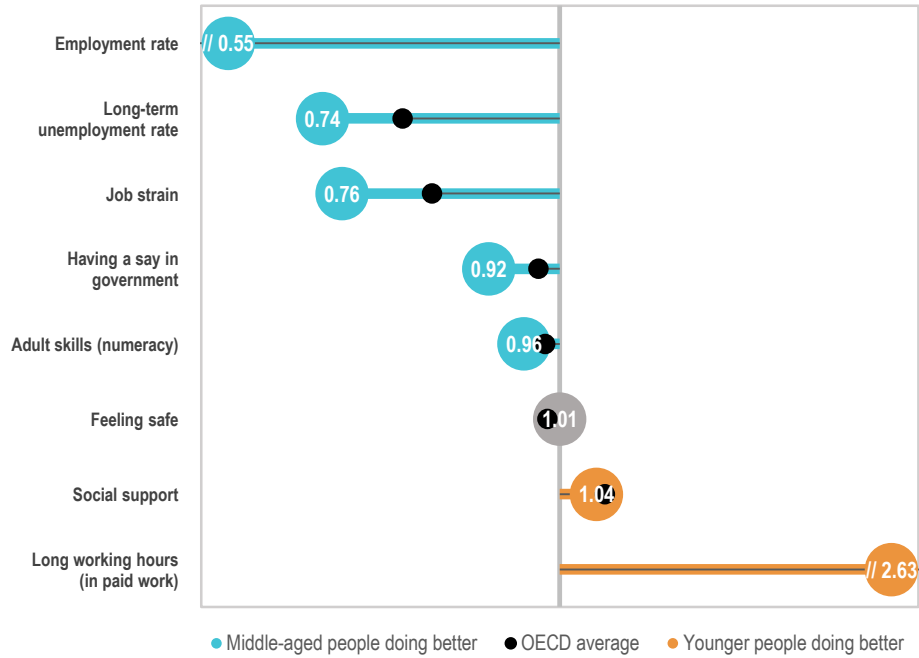

Note: Grey bubbles denote no clear difference between men and women, defined as gender ratios within 0.03 points distance to parity.

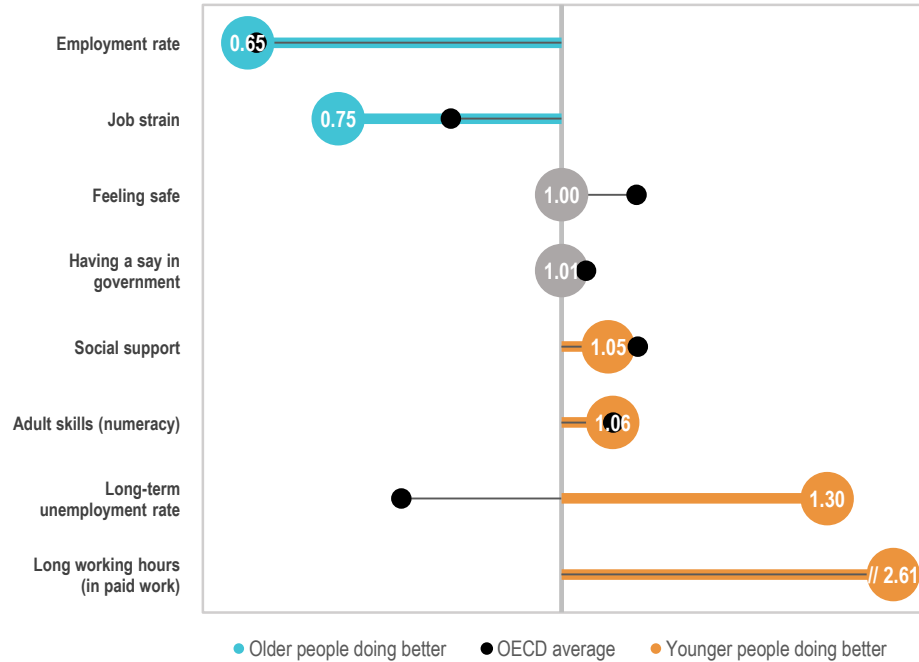

### Inequalities between age groups in Israel

Age ratios (distance from parity) for selected indicators of current well-being, 2018 or latest available year

A. Younger and middle-aged people

B. Younger and older people

Note: Age ranges differ according to each indicator and are only broadly comparable. They generally refer to 15-24/29 years for young people, 25/30 to 45/50 years for the middle-aged and 50 years and over for older people. See *How's Life? 2020* for further details. Grey bubbles denote no clear difference between age groups, defined as age ratios within 0.03 points distance to parity.

## Inequalities between people with different educational attainment in Israel

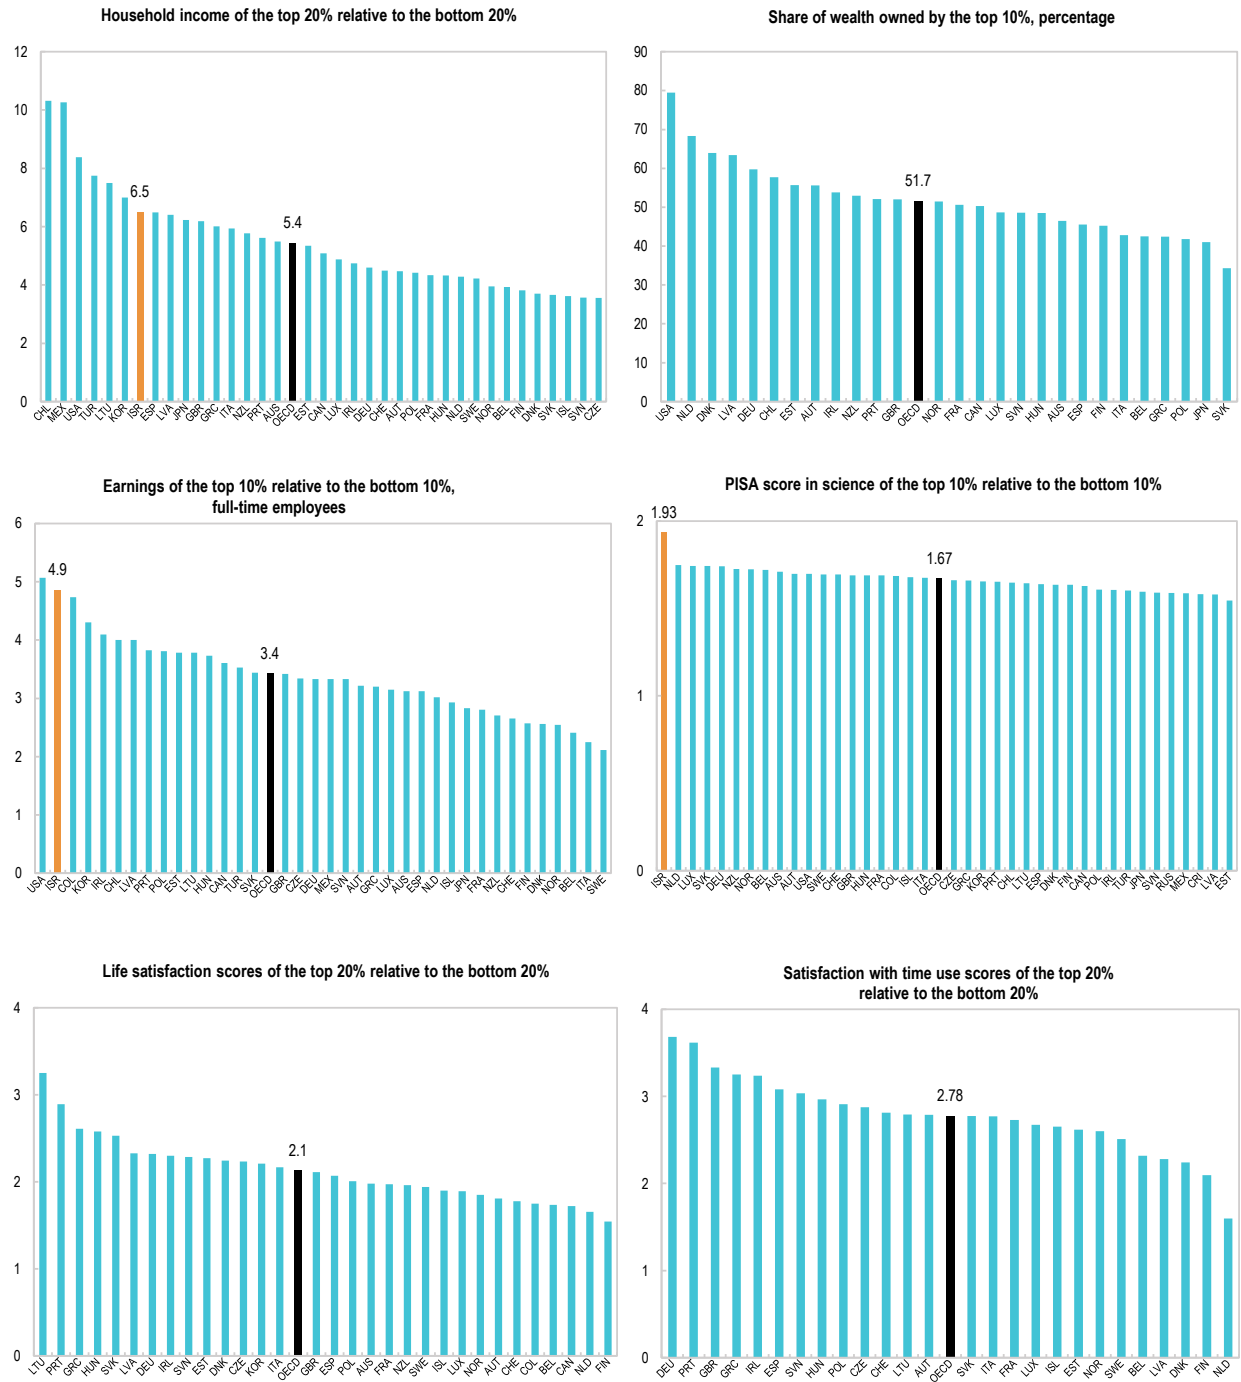

Education ratios (distance from parity) for selected indicators of current well-being, 2018 or latest available year

Note: Grey bubbles denote no clear difference between groups with different educational attainment, defined as education ratios within 0.03 points distance to parity.

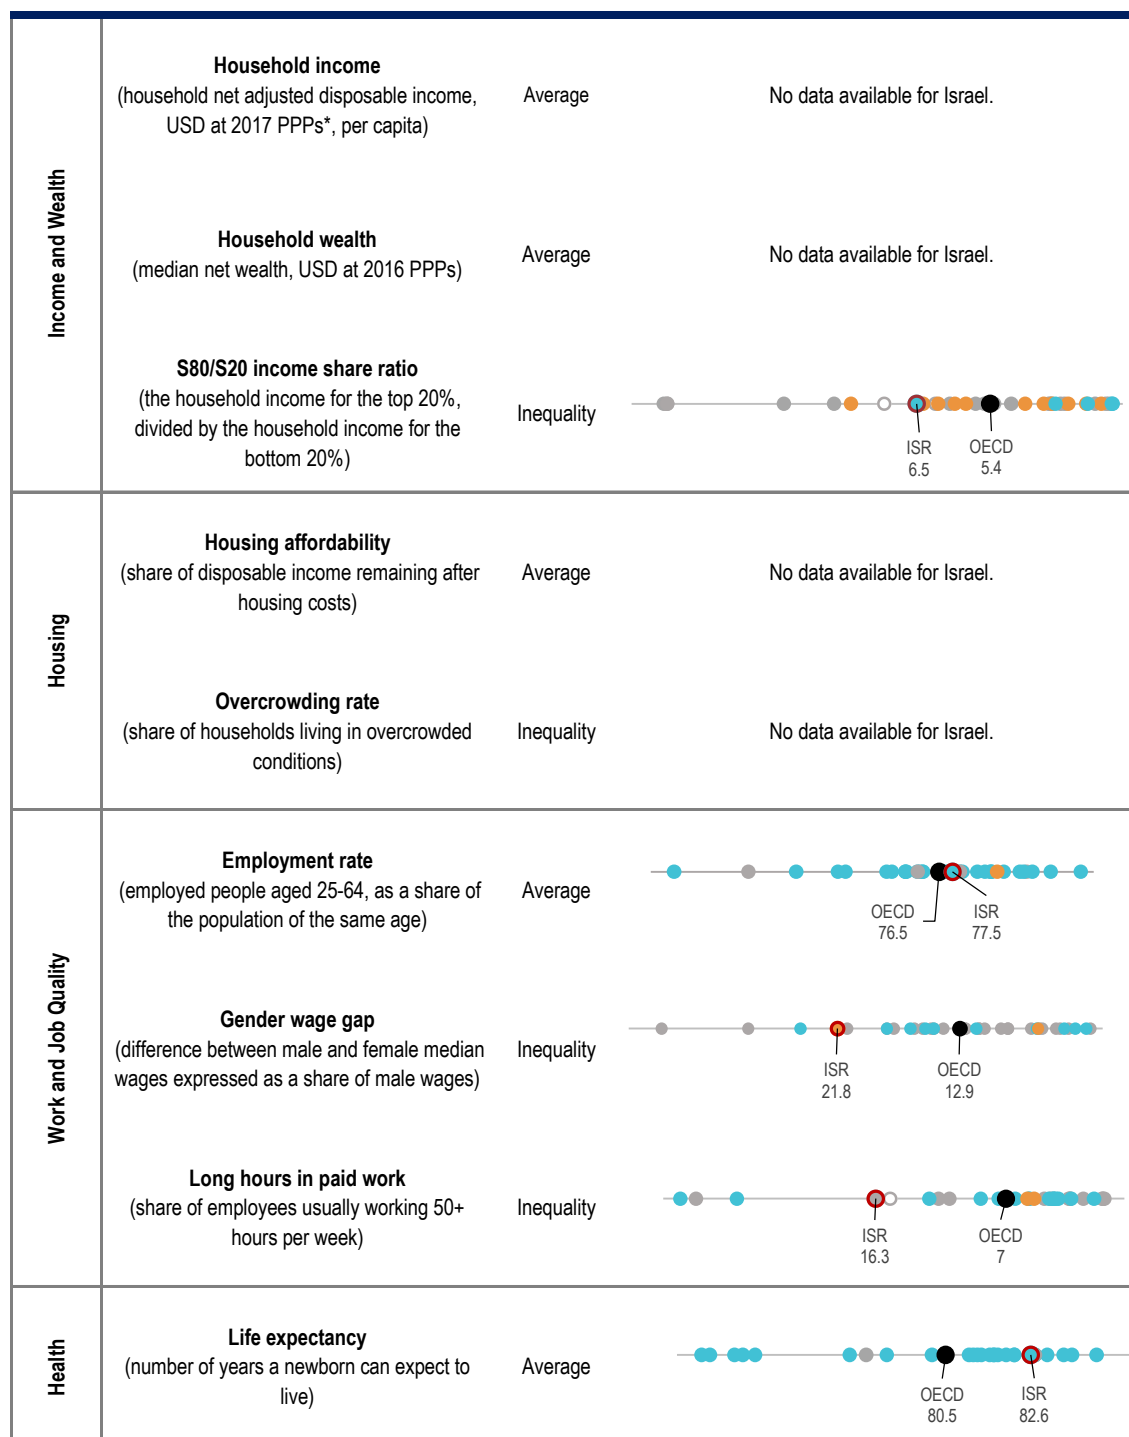

## Inequalities between top and bottom performers in Israel

Vertical inequalities for selected indicators of current well-being, 2018 or latest available year

Note: For all figures, countries are ranked from left (most unequal) to right (least unequal).

## Trends in current well-being since 2010 in Israel - I

Note: The snapshot depicts data for 2018, or the latest available year, for each indicator. The colour of the circle indicates the direction of change, relative to 2010, or the closest available year: ● = consistent improvement, ● = consistent deterioration, ● = no clear trend, and white for insufficient time series to determine trends. The OECD average is marked in black. For methodological details, see the Reader's Guide of *How's Life? 2020*. \* = Purchasing Power Parity.

Trends in current well-being since 2010 in Israel - II

<p><b>Knowledge and Skills</b></p>	<p><b>Student skills in science</b> (PISA mean scores)</p>	<p>Average</p>	<p>ISR 462 OECD 489</p>
<p><b>Environmental Quality</b></p>	<p><b>Exposure to outdoor air pollution</b> (share of population &gt; WHO threshold)</p>	<p>Inequality</p>	<p>ISR 100 OECD 62.8</p>
<p><b>Subjective Well-being</b></p>	<p><b>Life satisfaction</b> (mean value on a 0-10 scale)</p>	<p>Average</p>	<p>No data available for Israel.</p>
	<p><b>Negative affect balance</b> (share of population reporting more negative than positive feelings and states yesterday)</p>	<p>Inequality</p>	<p>ISR 18 OECD 13</p>
<p><b>Safety</b></p>	<p><b>Homicides</b> (per 100 000 population)</p>	<p>Average</p>	<p>OECD 2.4 ISR 1.5</p>
	<p><b>Gender gap in feeling safe</b> (percentage difference that women feel less safe than men when walking alone at night)</p>	<p>Inequality</p>	<p>OECD -16 ISR -13.3</p>
<p><b>Work-life Balance</b></p>	<p><b>Time off</b> (time allocated to leisure and personal care, hours per day)</p>	<p>Average</p>	<p>No data available for Israel.</p>
<p><b>Social Connections</b></p>	<p><b>Social interactions</b> (hours per week)</p>	<p>Average</p>	<p>No data available for Israel.</p>
	<p><b>Lack of social support</b> (share of people who report having no friends or relatives whom they can count on in times of trouble)</p>	<p>Inequality</p>	<p>ISR 9.3 OECD 8.6</p>
<p><b>Civic Engagement</b></p>	<p><b>Voter turnout</b> (share of registered voters who cast votes)</p>	<p>Average</p>	<p>ISR 67 OECD 69</p>
