

Introduction

H*Health at a Glance: Asia-Pacific* presents a set of key indicators on health and health systems for 27 Asia-Pacific countries and economies. It builds on the format used in previous editions of *Health at a Glance* to present comparable data on health status and its determinants, health care resources and utilisation, health expenditure and financing and health care quality.

This publication was prepared jointly by the WHO Western Pacific Regional Office, the WHO Regional Office for South-East Asia, the OECD Health Division and the OECD/Korea Policy Centre, under the co-ordination of Luca Lorenzoni from the OECD Health Division.

Chapter 1, Chapter 2 and Chapter 3 were prepared by Frederic Daniel and Luca Lorenzoni from the OECD Health Division, with support from Jun Gao and Therese Maria Reginaldo (WHO/WPRO) and Mark Landry and Rakesh Mani Rastogi (WHO/SEARO). Chapter 4 was written by Luca Lorenzoni, with support from Chandika Indikadahena (WHO Geneva), Annie Chu and Maria Teresa Pena (WHO/WPRO) and Lluís Vinals Torres (WHO/SEARO). Chapter 5 was prepared by Frederic Daniel, Nicolaas Sieds Klazinga and Luca Lorenzoni, with support from Ali Nurgozhayev (OECD Health Division).

Valuable input was received from Anjana Bhushan, Bai-Fang Xiao Sobel, Britta Monika Baer, Glenda Gonzales, Hai-Rim Shin, Howard Sobel, Indrajit Hazarika, James Kelley, Jason Ligot, Jonathon Passmore, Katrin Engelhardt, Khonkar Rifat Hossain, Linh-Vi Le, Mari Nagai, Marie Clem Carlos, Mina Kashiwabara, Mohd Nasir Hassan, Nobuyuki Nishikiori, Priya Mannava, Rabindra Abeyasinghe, Rasul Baghirov, Saki Narita, Sergey Diorditsa, Tara Mona Kessaram, Thomas Dale Hiatt, Warrick Junsuk Kim, Whitney Skowronski, and Ying-Ru Jacqueline Lo (WHO/WPRO), and Gaetan Lafortune (OECD Health Division).

This publication benefited from the comments and suggestions of Vivian Lin (Director, Health Systems, WHO/WPRO), Phyllida Travis (Director, Health Systems Development, WHO/SEARO), Sung-wong Ra (Director General of the OECD/Korea Policy Centre) and Francesca Colombo (Head of OECD Health Division).

Structure of the publication

Health at a Glance: Asia-Pacific 2016 is divided into five chapters:

- Chapter 1 on *Health status* highlights the variations across countries in life expectancy, infant and childhood mortality and major causes of mortality and morbidity, including both communicable and non-communicable diseases.
- Chapter 2 on *Determinants of health* focuses on non-medical determinants of health. It features the health of mothers and babies, through family planning issues, low birthweight and breastfeeding. It also includes lifestyle and behavioural indicators such as smoking and alcohol drinking, unhealthy diets, and underweight and overweight, as well as water and sanitation. It also includes a new indicator on road safety.
- Chapter 3 on *Health care resources, utilisation and access* reviews some of the inputs, outputs and outcomes of health care systems. This includes the supply of doctors and nurses and hospital beds, as well as the provision of primary and secondary health care services, such as doctor

consultations and hospital discharges, as well as a range of services surrounding pregnancy, childbirth and infancy.

- Chapter 4 on *Health expenditure and financing* examines trends in health spending across Asia-Pacific countries and economies. It looks at how health services and goods are paid for, and the different mix between public funding, private health insurance, direct out-of-pocket payments by households and external resources. It also looks at pharmaceutical expenditure trends.
- Chapter 5 on *Quality of care* builds on the indicators used in the OECD's Health Care Quality Indicator programme to examine trends in health care quality improvement across Asia-Pacific countries and economies.

Annex B provides some additional tables on the demographic and economic context within which different health systems operate.

Asia-Pacific countries and economies

For this fourth edition of *Health at a Glance: Asia-Pacific*, 27 regional countries and economies were compared: 22 in Asia (Bangladesh; Brunei Darussalam; Cambodia; China; Democratic People's Republic of Korea; Hong Kong, China; India; Indonesia; Japan; Lao People's Democratic Republic; Macao, China; Malaysia; Mongolia; Myanmar; Nepal; Pakistan; Philippines; Republic of Korea; Singapore; Sri Lanka; Thailand and Viet Nam) and five in the Pacific region (Australia, Fiji, New Zealand, Papua New Guinea and Solomon Islands).

Selection and presentation of indicators

The indicators have been selected on the basis of being relevant to the health needs of people in the Asia-Pacific region, taking into account the availability and comparability of existing data. The publication takes advantage of the routine administrative and programme data collected by the World Health Organization, especially the Regional Offices for the Western Pacific and South-East Asia, as well as special country surveys collecting demographic and health information.

The indicators are presented in the form of easy-to-read figures and explanatory text. Each of the topics covered in this publication is presented over two pages. The first page defines the indicator and notes any significant variations which might affect data comparability. It also provides brief commentary highlighting the key findings conveyed by the data. On the facing page is a set of figures. These typically show current levels of the indicator and, where possible, trends over time. In some cases, an additional figure relating the indicator to another variable is included.

The cut date for all the data reported in this publication is Friday 9 September 2016.

Averages

In text and figures, "Asia-xx" refers to the unweighted average for Asian countries and economies, where "xx" is the number of countries for which data are available. It excludes the five Pacific countries (Australia, Fiji, New Zealand, Papua New Guinea and Solomon Islands) and the OECD average.

"OECD" refers to the unweighted average for the 35 OECD member countries. It includes Australia, Japan, New Zealand and the Republic of Korea, but excludes the Asia average. Data for OECD countries are generally extracted from OECD sources, unless stated otherwise.

Country ISO codes

Australia	AUS	Mongolia	MNG
