1. Payments to the European Union are excluded from these comparisons.
2. The total tax revenue has been reduced by the amount of any capital transfer that represents uncollected taxes. The capital transfer has been allocated between tax headings in proportion to the reported tax revenue, except for Belgium, where the capital transfers were subtracted directly from the specific taxes to which they relate.
3. Colombia and Spain are not constitutionally federal countries, but both have a highly decentralised political structure, with high autonomy of their territorial entities.
