

Infographic 1. PISA 2022 key results [1/2]

Students' proficiency in mathematics

Percent of students at or above basic mathematics proficiency

Reaching the baseline is only the starting point...

Education systems should aim to provide students with opportunities to fulfill their potential.

The most disadvantaged students in some education systems outperform the most advantaged students in others

Performance across the OECD saw a record drop

Mathematics

2018 2022

3/4 of a year

Reading

2018 2022

1/2 a year

Science

2018 2022

no significant change

Mathematics, reading and science performance declined significantly since PISA began

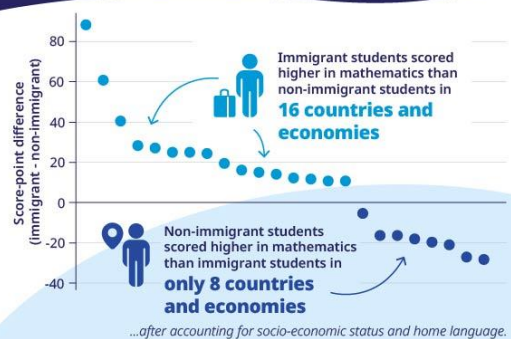

The results for mathematics remained statistically constant from 2003 to 2018.

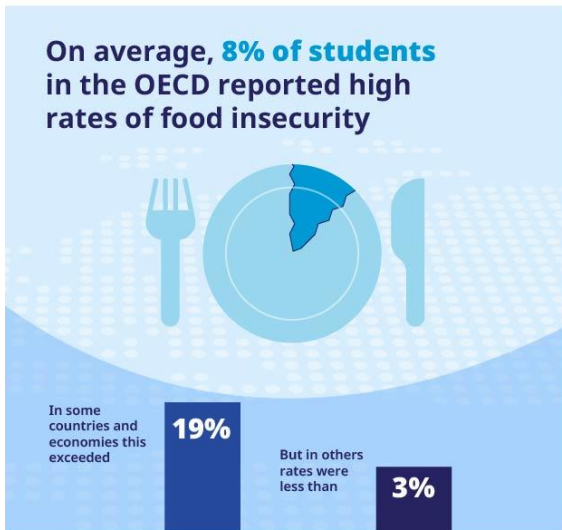

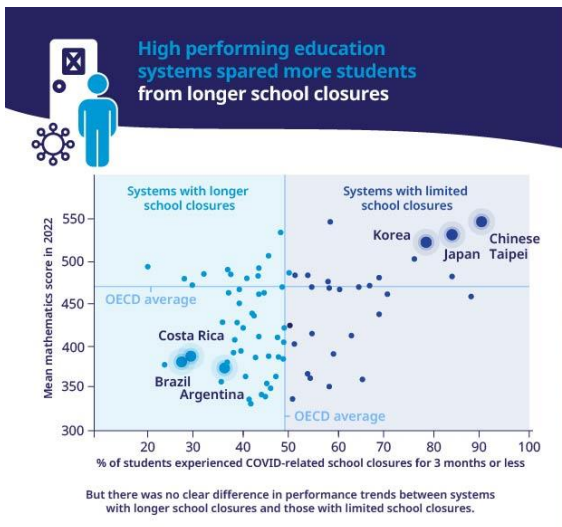

On average across the OECD boys outperformed girls in mathematics by 9 points

There is no significant performance difference between immigrant and non-immigrant students
