

3 Tax Levels and Tax Structures, 1965-2020

Chapter 3 provides an overview of tax levels and tax structures in OECD countries.

In all of the following tables the symbol (..) indicates not available/or not applicable. The main series in this chapter cover a selection of years between 1990 and 2019. A complete series is, however, available on line. Data for 1955 and 1960 (for nineteen OECD countries) are provided in part V of the 1998 edition of this Report.

The Gross Domestic Product (GDP) figures are based on the 2008 System of National Accounts (SNA) for all OECD countries.

Box 3.1. Treatment of capital transfers

Footnotes to Tables 3.1 to 3.18 refer to the treatment of the capital transfers that some countries make to account for taxes that have been assessed but not collected. The capital transfer has been subtracted from the total tax revenue for France, Luxembourg and Poland and this reduction has been allocated between tax headings in proportion to their tax revenues at the level of government against which these transfers were recorded. In the case of Austria, Belgium, Denmark, Lithuania and Switzerland the capital transfers were instead subtracted directly from the specific taxes to which they relate.

Countries reporting capital transfers include:

- Austria in 2020.
- Belgium from 1995.
- Denmark from 1971.
- France from 1992.
- Lithuania from 1999.
- Luxembourg from 2013.
- Poland from 1995 to 2019.
- Switzerland from 1990.

1. The capital transfers were subtracted directly from the specific taxes to which they relate, except for France, Luxembourg and Poland, where the capital transfers have been allocated between tax headings in proportion to the reported tax revenue.
2. 2020: calculated by applying the unweighted average percentage change for 2020 in the 36 countries providing data for that year to the overall average tax to GDP ratio in 2019.

1. GDP is fiscal year. The year Y is calculated (at annual rate) as the average of: Q2(Y) to Q1(Y+1) for Japan; and Q3(Y) to Q2(Y+1) for Australia and New Zealand.
 2. The GDP shown for 1990 in Costa Rica is taken from the IMF (World Economic Outlook Database, accessed in October 2021). The GDP for all other years is taken from the OECD National Accounts.
 3. The GDP shown for 2020 in Korea is taken from the OECD National Accounts, accessed in September 2021, and is an estimated value.
