- Social transfers in kind related to expenditure on products, payable are included in intermediate consumption.
- In April 2005 British Nuclear Fuels plc transferred to the Nuclear Decommissioning Authority «NDA» nuclear reactors. The value of the transfer was £15.6 billions. The 2005 value for gross capital formation and gross fixed capital formation reflects the fact that the reactors are at the end of their productive lives and have large decommissioning and clean-up liabilities.
